Science Meets Business:

Why Choose Rutgers University for Your Master of Business and Science Degree

The Rutgers University Master of Business and Science (MBS) degree is unique because it provides job-focused training in your chosen area of expertise along with essential business skills. From our uniquely crafted programs to our real-world connections, we make sure that your pathway to success is empowered and clear.

Three Key Areas with over 25 Academic Concentrations

The Master of Business and Science (MBS) degree combines a traditional, science-based master's curriculum with comprehensive business instruction and professional education. You can attend classes full-time, part-time, and/or online. Choose a concentration under one of our three science tracks below:

Fully Online

Life Sciences

- Biotechnology and Genomics
- Drug Discovery and Development
- Personal Care Science
- Global Agriculture
- Applied Food Science and Technology
- Regulatory Science

Engineering Management

- Engineering Management
  - Quality and Reliability Engineering
  - Product and Packaging Engineering
  - Pharmaceutical Engineering
  - Informatics and Data Engineering
  - or an Interdisciplinary pathway

Computer and Information Sciences

- Analytics: Data Science & AI
- Cybersecurity
- User Experience Design (UXD)
- Product Design
- Social Media and Networking
- Technology Management

In Person/Hybrid

Life Sciences

- Biotechnology and Genomics
- Drug Discovery and Development
- Personal Care Science
- Regulatory Science
- Other
  - Applied Food Science and Technology
  - Global Agriculture
  - Horticulture and Turfgrass Science
  - Sustainability
  - Urban Environmental Analysis

Engineering Management

- Engineering Management
  - Quality and Reliability Engineering
  - Product and Packaging Engineering
  - Pharmaceutical Engineering
  - Informatics and Data Engineering
  - or an Interdisciplinary pathway

Computer and Information Sciences

- Analytics and Cybersecurity:
  - Analytics: Data Science & AI
  - Cybersecurity
- Experience Design
  - User Experience Design (UXD)
  - Social Media and Networking
  - Product Design
- Other
  - Actuarial and Statistical Analysis
  - Applied Computing
  - Geospatial Information Systems and Technology
  - Industrial Mathematics
  - Technology Management

25+
Concentrations in Our MBS Program

1,800+
MBS Alumni (2026)

700+
Current Students in Our MBS Program

Strengths of Our Program

Our student body of close to 700 professionals – many of whom are working full-time while pursuing their degree – enjoy a number of advantages unique to our program, including:

A Flexible, Student-Centric Program

Accommodates the needs of both working professionals and full-time students, with customized curricula tailored to meet each student's individual career goals and work/life demands. Courses can be taken on both a part-time or full-time basis, with many concentrations offered fully online.

Multidisciplinary, University-Wide Partnerships

Partnerships among the more than 400 graduate and professional schools across Rutgers' three main campuses enable students to fully utilize and leverage Rutgers' vast resources as a premier academic medical center and research powerhouse.

Geographic Location

In one of the country's densest industrial STEM corridors, our faculty, staff, executive coaches, and expert instructors form and maintain strong relationships with industry leaders representing the nation's top corporations.

Executive Coaching

A hallmark of our program provides students with individualized guidance, feedback, and goal setting that includes actionable plans to accelerate career advancement. Executive coaching provides both students and alumni with the tools, resources, and opportunities to become and remain innovators and leaders – working collaboratively to create and refine Individual Development Plans (IDP) that outline personal and professional goals.

Industry Partnerships and Experiential Learning

Students are connected with industry experts and mentors at some of the world's leading employers.

A Strong Alumni Network

Our alumni network is a group of active, engaged individuals who provide comprehensive, accessible mentoring and abundant networking opportunities for MBS students. Regular student-alumni mixers and panel events allow current students to meet our successful graduates – many of whom are leaders in their industries.

Join the next generation of science and technology leaders.

If we sound like the right fit for you, submit your application today with a waived application fee (for domestic applicants) and the GRE score is not required.
